- PENDANTS: one
- MOUNTING: metal mounting plate 115mm (4.5") in diameter
- LAMPING: 1.5w LED or 10w xenon
- INSTALLATION: threaded on - wall or ceiling mount
- MATERIALS: blown glass, electrical components, metal mounting plate
- WEIGHT: approximately 2.7kg (6lb)
- POWER SUPPLIES: integral (power supply housed within junction box). Power supplies included

DESCRIPTION

The 'sp' designation in this variation on the 38V refers to it being surface-mounted. This surface light has a paintable 115mm (4.5") in diameter mounting plate designed to be mounted on walls as well as ceilings.

38V is a variant of the original 38 series where a large glass sphere is blown with a multitude of haphazard interior cavities, which intersect and collide in unpredictable ways. 38V is smaller, lighter and suspended with coaxial cables. The interior cavities can be filled with plants or left empty.

Standard 38V are made with clear glass exterior spheres and milk white interior lamp holder cavities.

NOTES

- + Purchase replacement lamps online at www.bocci.ca/shop/bulbs
- + Unless otherwise noted when ordering, all fixtures will be outfitted to be xenon compatible

PRODUCT SPECIFICATION

1

Directly mounted to a junction box.

Xenon (110V) or LED: connect the black wire to live wire and white wire to neutral wire.

Xenon (230V): connect black wire to brown wire and white wire to blue wire.

2

Join power supply wiring to cover plate wiring using connectors provided.

Tuck wiring into wall opening and affix the back plate with fasteners provided.

Turn power to fixture on.

3

Insert provided lamp into socket. Check that each lamp is working properly as you go along by keeping the power on.

Paint over the back plate to match the wall finish.

4

Gently thread glass sconce onto back plate. Do not tighten past the point of contact.

5

Clean fingerprints from surfaces.
