

115 (4.5")

±100-165 (4-6")

- PENDANTS: one
- MOUNTING: white powder coated metal mounting plate 115mm (4.5") in diameter
- LAMPING: 1.5w LED
- INSTALLATION: threaded on - wall or ceiling mount
- MATERIALS: blown and dipped glass, braided electrical components, silicon gasket, metal mounting plate
- WEIGHT: approximately 1.5kg (3.4lb)
- POWER SUPPLIES: integral (1x per fixture)

DESCRIPTION

The 'sp' designation in this variation on the 57 refers to it being surface-mounted, with a mounting plate large enough to cover a standard North American junction box. This surface light has a paintable 115mm (4.5") in diameter mounting plate designed to be mounted on walls as well as ceilings.

57 is an exploration of a technique used for producing closed cell foam. The process involves trapping voids of air of different sizes and configurations within a glass matrix, yielding a shape loosely referencing a rain cloud. These pockets of air remain invisible when the piece is off, but come alive to reveal an interior universe when the piece is illuminated. By virtue of the fabrication process, each piece is completely unique.

BOCCI

1

Directly mounted to a junction box.

Connect the black wire to live wire and white wire to neutral wire.

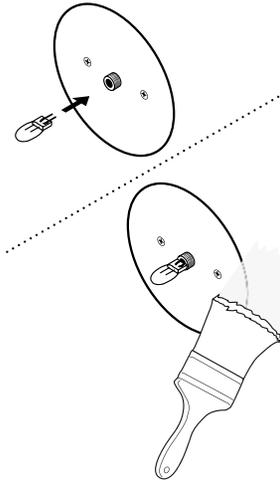

2

Join power supply wiring to cover plate wiring using connectors provided.

Tuck wiring into wall opening and affix the back plate with fasteners provided.

Turn power to fixture on.

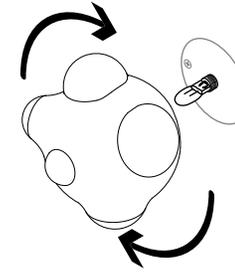

3

Lamps included.

Plug the lamp into the socket.

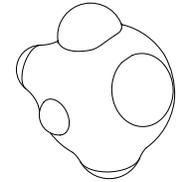

Do not touch the lamp with your bare hands. Ensure power to lamp is working correctly.

Paint over the back plate to match the wall finish.

4

Gently thread glass sconce onto back plate. Do not tighten past the point of contact.

5

Clean fingerprints from surfaces.
