

- PENDANTS: three
- MOUNTING: 142mm (5.6") x 35mm (1.38")
- LAMPING: 1.5w LED
- STEM LENGTH 0.9m (3') or 1.8m (6') long stem
- ADDITIONAL EXTENDERS 153mm (6") / 305mm (12") / 914mm (36") / 1524mm (60")
- MATERIALS: blown glass, electrical components, unlacquered brass or black powder coated brass stem, black or white canopy
- WEIGHT: approximately 7.4kg (16.4lb) / 8.4kg (18.4lb)
- POWER SUPPLIES: integral

**DESCRIPTION**

The stem ceiling mounted system comes in unlacquered brass or black powder coated stem with a 142mm (5.6") diameter mounting plate rated for ceiling use. A white glass bubble is captured inside a fine copper mesh basket and then plunged into hot clear glass. Air is blown into the matrix to gently push the white glass through the mesh, creating a delicate pillowed form that is suspended inside the thick outer layer of clear glass. Sometimes the copper mesh basket folds and crinkles, adding specificity to each piece.

**NOTES**

- + Purchase replacement lamps online at [www.bocci.com/shop/bulbs](http://www.bocci.com/shop/bulbs)
- + Power supply can be remote mounted with 94mm (3.7") x 6mm (0.24") canopy.
- + **The brass used in our Stem Series is untreated and, as such, will develop a natural patina over time. To avoid any marking or tarnish on the brass during handling and installation, please use the gloves provided in your shipment.**
- + To maintain your fixture, please regularly dust with a lint-free cloth. If further cleaning is required, dampen a lint-free cloth with water only and wipe gently to remove dust or debris.

1

Thread the cover cap on one end of the stem.

Note: Bocci recommends wearing thin gloves during installation to protect the stem finish and the glass surface.

2

Connect the stem pieces by threading the stem connector to the stems.

Note: This step is only necessary for overall stem lengths longer than 1.8m (6').

3

Thread the pendant mounting plate onto the stem.

Carefully insert provided lamp into socket.

4

Connect power supply to line voltage.

- i. Connect input low voltage wire to 12V DC output wires by feeding the wires through the slots on the mounting plate.
- ii. Connect the black wire to line wire and white wire to neutral wire.
- iii. Ensure that line voltage is not active during this part of the installation!

Note: As an option, Bocci recommends mounting power supplies remotely in a close, accessible and hidden location for ease of long term maintenance. Installation to be done by certified personnel to ensure compliance with the code.

5

The client is responsible to ensure fasteners are attached to a robust structural substrate.

Affix mounting plate to surface with fasteners provided.

Thread canopy cover onto the mounting plate.

Thread on the stem to canopy.

Turn power to fixture on.

6

Gently thread pendant onto the stem. Be sure to carefully place the pendant so as not to damage the lamp during installation.

Clean fingerprints from fixture surfaces.
